

# Photography and Social Media

**We take a positive approach to photography and social media and want to promote an active lifestyle while sharing our pool with as many people as possible.**

Photography is allowed poolside but not under-water, in the toilets, showers or changing areas. *Please let our lifeguards know if you will be taking photos.*

Please be mindful of others when taking photos, avoiding close-ups of people who aren't members of your group.

If you are a professional photographer, permission must be sought from our staff.

We do take photos and videos for our own social media; when users will be identifiable, we will ask permission, although we do use 'wide' shots of a full pool at times.
